# STEPUP PERFORMANCE PACKAGES

## DETROIT SERIES 60

STEP 1 \$ 722.00

Single electronic unit injector, primary and secondary fuel filters

- Genuine **reliabilt®** EUI
- Genuine Detroit Diesel primary and secondary fuel filter replacement
  - New fuel filter(s) helps ensure clean fuel, which improves injector life
  - Fuel Pro filter cartridge can be substituted
- Includes installation
- 1-year/unlimited mile warranty on **reliabilt®** EUI

STEP 2 \$ 2304.00

POWERPACKS complete set of fuel injectors and fuel filters  
INSTALLED

- *POWERPACKS* represent a savings in parts cost over **reliabilt®** EUIs purchased individually
- Provides significant labor savings over individual service visits
  - A complete set of injectors can be installed in a little more time than a single **reliabilt®** EUI
  - Installing *POWERPACKS* in a single service visit reduces future downtime
- Genuine Detroit Diesel primary and secondary fuel filter replacement
  - New fuel filter(s) helps ensure clean fuel, which improves injector life
  - Fuel Pro filter cartridge can be substituted
- Includes installation
- 1-year/unlimited mile warranty on *POWERPACKS*

DRIVING TOWARD THE FUTURE

### STEP 3 \$ 2530.00

#### POWERPACKS and fuel filters INSTALLED, and a charge air cooler

- *POWERPACKS* represent a savings in parts cost over **reliabilt**® EUIs purchased individually
- Genuine Detroit Diesel primary and secondary fuel filter replacement
  - New fuel filter(s) helps ensure clean fuel, which improves injector life
  - Fuel Pro filter cartridge can be substituted
- CAC test determines if CAC is leaking
  - A leaking CAC can cause significant degradation in fuel economy.
  - Replacement CAC if test fails (additional cost)
- Includes all installation and testing labor
- 1-year/unlimited mile warranty on *POWERPACKS*

### STEP 4 \$ 3182.00

#### POWERPACKS, fuel filters, a Jake Brake Tune-up Kit INSTALLED, and a CAC test

- *POWERPACKS* represent a savings in parts cost over **reliabilt**® EUIs purchased individually
- Genuine Detroit Diesel primary and secondary fuel filter replacement
  - New fuel filter(s) helps ensure clean fuel, which improves injector life
  - Fuel Pro filter cartridge can be substituted
  - CAC test determines if CAC is leaking
  - A leaking CAC can cause significant degradation in fuel economy, excessive black smoke and damage to engine components
  - Replacement CAC if test fails (additional cost)
- Jake Brake Tune-up Kit replaces critical parts to maintain maximum performance and trouble-free operation
- Includes all installation and testing labor
- 1-year/unlimited mile warranty on *POWERPACKS*
